

WE MUST PREVENT POLIO TO OVERCOME IT!

(Dedicated to Millions of children, now living, who will die unnecessarily of POLIO)

by DUON H. MILLER, President
POLIO PREVENTION, INC.
Coral Gables, Florida

SOMETHING IS RADICALLY WRONG. Every year the number of POLIO victims increases.

The public has not been told, and is not being told, the truthful fact that POLIO is just as DEFINITELY a disease of MALNUTRITION as Pellagra and Beri-Beri. If you believe that the real answer to POLIO is honestly being sought and would be made available to the world when found — then you would also believe that the Standard Oil Company is backing research in an attempt to prohibit the use of gasoline and oil.

As I wrote Mr. Basil O'Connor of the Nation Foundation FOR Infantile Paralysis on September 5, 1952 — in part as follows:

"Are you a MAN in the eyes of GOD? Will you be able to face your Creator with a clear conscience KNOWING that YOU had the opportunity and were in the position to prevent millions of children from becoming POLIO victims . . . yet you "smugly" stood by permitting innocent children to be offered in sacrifice on the altar of GREED for the almighty DOLLAR?"

"I only wish I were in your position . . . I'D STAMP OUT POLIO . . . simply by telling the truth and forgetting material profit. CHILDREN COME BEFORE DOLLARS.

"POLIO is a "man-built" disease of malnutrition just as definitely as Beri-Beri or Pellagra; and can be eradicated just as easily. Let's stop kidding the public about looking for the 'little bug' you will never find. Let's cut out this 'money-grabbing racket' angle. POLIO CAN BE STAMPED OUT IN A MATTER OF WEEKS . . . then we can stop 'promoting' the public for more dimes and dollars. LIFE IS MORE IMPORTANT THAN THINGS.

"POLIO can be CURED nutritionally (just as Beri-Beri or Pellagra) without drugs or serums. I dare you to challenge me to prove this. It has already been PROVEN."*

In interviewing Sister Kenny, a prominent editor was told of the vicious war that the FDR "March of Dimes" crowd waged against her. It was indeed shameful.

This editor said to Sister Kenny, "Maybe it wasn't infantile paralysis that crippled the body and brain of FDR."

Sister Kenny, usually rather re-

served about expressing her emotions, laughed long and loudly and said, "You're exactly right. FDR did not have infantile paralysis."

Since the original "March of Dimes" promotion was based on the assumption that FDR was a victim of Polio, this FRAUDULENT BASIS of this "promotion" leaves us no other LOGICAL CONCLUSION other than anything based on fraud cannot be other than FRAUDULENT in itself.

Yet the March of Dime "voodoo priests", "racketeers" and high-powered "promoters" CASH IN on everyone's misfortune . . . Just how rotten can humans become???

IT'S A TERRIBLE CRIMINAL RACKET.

FEAR TECHNIQUE (plus sob propaganda) using illustrations of wheel chairs, crutches and crippled children as the basis of collecting tens of millions of dollars every year from deluded, misguided Americans rich and poor with humanitarian motives and hearts, providing luxurious living for hundreds of unscrupulous "racketeers"; plus their high-salaried "administrators" fostering pseudo-science and criminal maladministration saturated with poison of commercial greed. The entire "gang" STINKS as far as I am concerned. BEWARE OF SUCH "RASCALS" — THEY ARE A THREAT TO SOCIETY.

"THE DRUG STORY" (Washington, D.C.) says:

"The most highly publicized of all money collecting rackets has been that of infantile paralysis, technically called poliomyelitis. "To keep patients in hospitals and wheel chairs for months and years is more profitable to the drug trust and its satellites than to cure them in 48 hours or a week. For this reason the Infantile Paralysis Association sees to it that this is NOT done."

The millions of dollars which are being WASTED in the chase for some magic shot-in-the-arm cure can NEVER, even though successful, result in the optimum situation regarding POLIO. The ONLY solution of the POLIO problem which will be satisfactory is PREVENTION, which will leave the individual and the world free from POLIO.

Gamma Globulin is no more the answer to POLIO than it is for a sore toe. Scientifically it is a FRAUD, benefiting only the already rich Drug Trust and unethical medicos. It is only another carefully planned "EXCUSE" to keep the public's eyes turned away from the TRUTH about POLIO, while more "millions" are "grabbed" by the "March of Dimes" scoundrels.

POLIO is easily prevented, but not by looking for a nonexistent little "bug" which is all the POLIO racketeers "ballyhoo" about with the money donated by well-intentioned, uninformed people.

POLIO epidemics occur ONLY in the most highly civilized countries . . . where most children are literally starving to death WITH THEIR STOMACHS FULL of man-tampered, devitalized foods. Peoples living on more natural, unprocessed foods in such countries as China, India, Java, Rumania, Egypt, Italy and the savage tribes throughout the world NEVER experience POLIO epidemics and won't until they start eating the devitalized, non-nutritious, white man's food.

Disease and malfunction do not "strike" us; we build them within ourselves. Children permitted to indulge heavily in soft drinks (especially "colas"), over-sweetened and refined starchy foods are the greatest sufferers from POLIO-

NO CHILD OR ADULT ON A COMPLETELY COMPETENT AND BALANCED DIET EVER CONTRACTS POLIO.

Scientific brains all agree "We must prevent POLIO to overcome it." Effective POLIO control through PREVENTION will cost less than 1/100th of 1% of today's expenditures on POLIO.

The best way to solve any problem is to bring all the FACTS out into the open and evaluate them within the rigid criteria of LOGIC and TRUTH. Let's have a complete, thorough and (if possible) honest public investigation of POLIO . . . treating it as a public—not medical—problem. There need be no POLIO to treat, no more than there need be colds, tooth decay, cancer or any other disease.

Being adults and KNOWING the the cause of and how to prevent POLIO . . . we owe it to our children to guide them in the right path away from the PROVEN causes of POLIO. Won't you strive for, insist upon and HELP PROMOTE POLIO PREVENTION RIGHT NOW AS A MEANS OF SELF PRESERVATION? It's plain, common, "horse-sense".

KEEP POSTED

Get all new releases for 12 months by becoming an Associate Member . . . for as little as \$2.00. This is a BIG FIGHT but we must make this a better world for our boys and girls.

*Still unanswered [as of Feb. 1, 1955]

WHY??

POLIO is simply muscle and nerve cells STARVING TO DEATH

The TRUTH about PASTEURIZATION

Truly A
NATIONAL MENACE

Pasteurization has been **FRAUDULENT** since the day money-hungry QUACK Pasteur "stole" and *corrupted* the ideas of professor Antoine Bechamp. Pasteur's motives were **never HONORABLE** by any standards of eternal verity . . . he was a slick money vulture, in total disdain for humanity. Pasteur's only claim to distinction is that he introduced the prostitution of science to **COMMERCIALISM**. Pasteur died at 73, paralyzed during his last 25 years as a result of "taking, his own medicine".

Dr. W. R. Hadwen, M.D., writes:

"Pasteur's germ theory has **NO SCIENTIFIC BASIS** and is kept alive by commercialism. Pasteurization will ultimately rest in a graveyard."

Dr. J. Howard Brown of Johns Hopkins says,

"It is possible to recover living **STAPHYLOCOCCI** from many samples of pasteurized milk."

Professor Armstrong says pasteurization renders the human system "specially sensitive to **TUBERCULOSIS** infection".

THE DRUG STORY (Washington, D.C.) says:

"This pasteurization racket is so lucrative that National Dairy Products can pay its president (L. A. VonBommel) \$150,000 a year for doing nothing except going around and registering horror at the thought of drinking raw milk."

Unfair, unfavorable publicity has been focused on raw milk. One is astounded at the **deceit, chicanery** and **subterfuge** that the proponents of pasteurization have to resort to, to support their **LIES**.

Pasteurization is *fostered* by intensive, high-priced propaganda by milk distributors . . . enabling **dishonest dairies** to deliver **UNCLEAN** milk that otherwise would sour before it reaches your home. Pasteurized milk never sours even when dirty; it grows old and harmful to the consumer without giving any outstanding indication of deterioration. Degenerative-changes within it no longer cause it to become sour. Suddenly it becomes bitter and obviously putrescent . . . **it becomes ROTTEN as does an egg**. From the beginning to the end, the processing is fraught with **DANGER** to the consumer. If milk were not pasteurized it would have to be **clean** and produced under far more sanitary conditions or its poor condition would be reflected in **curdling**. Pasteurization hides this low quality. Homogenization is another **trick** and permits the mixing of stale milk with fresh which without homogenizing, would exhibit the *tell-tale* curdling of **staleness**.

Pasteurized milk is a doctored, degraded, unbalanced article of diet. Even in the healthiest individuals it produces **great vital strain**.

Mr. Henry Paley denounced pasteurization as "a commercial ramp. **The combines could not live without it.**"
PASTEURIZATION IS A DELIBERATE

FRAUD UPON THE PUBLIC. Pasteurized milk is potentially the most dangerous of foods. Milk that is not safe to be used raw is **NOT SAFE** to be used pasteurized. Pasteurization permits milk admittedly **UNFIT FOR FOOD** before pasteurization to be sold **regardless** of its content of filth and **regardless** of its high bacteria count *after pasteurization*.

Our *health officials* for too long have **deceived the people** by their statements that pasteurized milk is a wholesome, nutritious food. Pasteurization upsets calcium and phosphorus assimilation . . . *over three million pounds of calcium were thus lost during, the past year.* **Pasteurized milk is dear at any price**, and we know of no way to counteract or restore the damages due to its use. The health of our children and the future of our race are at stake.

Pasteurization has undoubtedly been productive of **UNTOLD MISERY** because of diminishing dietetic value . . . the lactic organism is destroyed and it becomes a particularly favorable breeding place for the putrefactive organisms, and is therefore a *potent cause of* **INFANTILE DIARRHEA**.

Pasteurization **DOES NOT** lower the bacteria count of the milk as consumed, for **germs grow faster** in pasteurized milk than in raw; and the count, while cut down by the pasteurization, soon **exceeds** the figure it had before. Bacteria not killed by pasteurizing milk are mainly putrefactive and proteolytic organisms and often cause **DIGESTIVE DISTURBANCES** to users of pasteurized milk. Laboratory technicians find that **recontamination** of pasteurized milk is many times as frequent as it is in Certified Raw Milk. Raw milk contains an inhibitor that holds down the rate of multiplication of bacterial life.

Pasteurization does **NOT** make milk safe . . . **it often increases the danger**. If the public could look into a pasteurizer after the days milk has passed through and see the **FILTH** (manure, hair, scabs, ants, roaches, maggots, etc.) **in the pasteurizer**, it would terminate for all time the use of pasteurized milk. *Manurial contamination is more frequent than people realize*. The use of pasteurized milk has been "promoted" by milk distributors with the **lie** that it is necessary to prevent the spread of undulant fever.

UNDULANT FEVER IS TRANSMITTED BY MEAT . . . NOT MILK.

In many cities where milk is pasteurized, undulant fever is **more prevalent** than in cities where they have clean raw milk. **PASTEURIZATION IS NOTHING MORE THAN A COLOSSAL FRAUD.**

Pasteurization destroys the enzymes' in milk. The **PHOSPHATASE** group is very important. Pasteurized milk fails to deliver its calcium and **CONSTIPATES** rather than aids digestion. Pasteurized milk has lost so much of its assimilable calcium that it will cause **RICKETS** if fed

alone as a complete dietary regimen. Pasteurized milk **fails** to supply sufficient calcium for maintaining the growth of a child. **CERTIFIED RAW MILK** is the only **SAFE MILK** from a nutritional standpoint . . . *because of its higher Vitamin C content and higher calcium content.*

Agricultural colleges throughout the world have **PROVEN** young calves fed pasteurized milk **DIE OF STARVATION**. At the University of Southern California, cat experiments were conducted using cooked meat and *pasteurized* milk; but the cats could not live long enough to complete the experiment so the laboratory was compelled to add raw meat and raw milk to the cats' diet. *So summing it all up, pasteurized milk is a DAMAGED food.*

Dr. Royal Lee, president of the Lee Foundation for Nutritional Research, Milwaukee, Wis., writes:

"I offer the sum of \$1,000 to anyone who can offer evidence acceptable to the average jury that pasteurization has not affected the nutritional values of milk to the extent that it is incapable of maintaining the tooth and bone structures of the test animal. God help the American nation if we cannot throw off this malignant cancer and protect our public health against such fatal influences."

Raw milk is a **protective food** having definite disease resisting power and promotes vigorous buoyant health.

Science **PROVES** children raised on **CLEAN** raw milk are resistant to anemia and **POLIO**. **A CHILD RAISED ON CLEAN RAW MILK AND FED WHOLESOME NOURISHING FOODS HAS NEVER BECOME A VICTIM OF POLIO.**

Dr. H. M. Shelton, in **HYGIENIC REVIEW** (Dec. 1952), writes:

"The cases in Houston, Dallas and San Antonio had no raw milk. All they can get in these cities is pasteurized milk. Back in the days when there was no such thing as pasteurization polio was almost unknown."

What we need is good natural **CLEAN MILK** from healthy vigorous cows with *clean* stables, *clean* workers and *clean* utensils. Then and then only will we get all of the valuable health and body building properties as **Nature** intended we should have.

There is no reason why all milk should not be **CLEAN** and **FREE FROM FILTH**, *the same as all foods.*

Milk producers can supply low bacteria count CLEAN MILK if required to do so.

Next to Mother's milk (*if you want a healthy, robust, perfect child*) there is no milk on earth comparable to **FRESH GOAT'S MILK . . . truly GOD'S MIRACLE FOOD FOR MANKIND.**

Pasteurization simply LEGALIZES the sale of FILTHY MILK to the detriment of YOUR health.
